

## 15<sup>th</sup> September 2021 – Important CoVid Information

**Dear Parents, Guardians and Students/ Annwyl Rhieni, Gwarchodwyr a Myfyrwyr**

Further to the previous messages sent regarding CoVid-19, we kindly request that all parents/guardians be extremely vigilant whilst monitoring their child for symptoms of COVID-19:

- ⇒ a new continuous cough and/or
- ⇒ high temperature (37.8oC or above) and/or
- ⇒ loss of, or change in, normal sense of taste or smell.
- ⇒ headache, sore throat or runny nose.

Children displaying any of the above symptoms should not attend school. We would also wish to advise parents/guardians of the wider symptoms which the Delta variant can present, including hay fever like symptoms; diarrhoea and/or an upset stomach. If your child presents with any of the above symptoms, we would strongly urge you to book a PCR test immediately.

We are presently experiencing confirmed Covid-19 cases amongst pupils in all year groups and would also urge all pupils to undertake twice-weekly LFT testing in order to keep our community as safe as possible. We are also aware that the test, trace and protect (TTP) service is experiencing a large number of daily cases resulting in a delay in contacting close contacts. We will provide further updates regarding this as we receive them.

Thank you for reading/Diolch am ddarllen!

Lee G Humphreys,  
Headteacher
